

TRAINEE DAY CHALMERS

Welcome to Traineeday 2023!

This year we welcome you to the 8th, and even better, edition of Trainee Day! Before you start reading about the fair, I have a question for you- how do you network?

I bet you don't do it the same way as I do, nor as your best friend. So, today I encourage you to ask those silly questions you've always wondered about- and don't forget to bring this catalogue with you as your guide to the trainee programs and companies attending this years fair.

Rest assured that the companies are already interested in you and take this opportunity to mingle and promote yourself!

All the best,

Roksana Haddad
CEO and Head of
Traineeday Chalmers

CHALMERS STUDENTKÅR PROMOTION

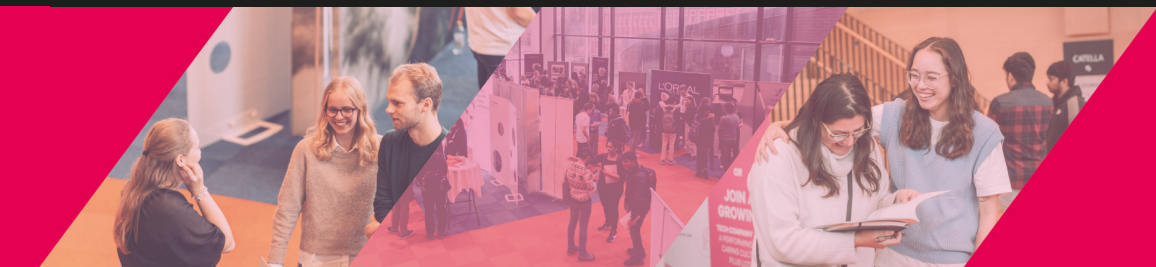

Chalmers Studentkår Promotion is one out of three student driven companies consisting of students from both Chalmers and Gothenburg University.

You've probably attended either a lunch lecture or a mingle event of ours, and now we meet here at Traineeday Chalmers. The main reason why we are organizing events such as Traineeday Chalmers is to help students at Chalmers meet their future employers and create a network that can help them to reach their dreams.

Who knows- maybe you'll be our next colleague in the future.

Combine the best of both worlds- join us and gain experience in terms of sales and project management parallell with your studies!

To learn more about us visit www.chalmerspromotion.se and make sure to follow us on our social media to keep up with all of our events!

Dear future trainee!

Today, you'll get the opportunity to meet with carefully selected companies in an exclusive, relaxed and professional setting focused on Trainee-services and your career after your examination. **Enjoy!**

What's a trainee anyway?

As a trainee you are enrolled in a company's trainee program. This program usually consists of a **career boost** where the trainee gets to try out a bunch of different roles with **full pay** at that company. The duration of a trainee position is usually in the range of between **6-18 months**, and often combined with **international possibilities**.

Don't miss out on our competition!

Make sure to partake in our guesstimate competition in Volvo foyer 2, and take the chance to win great price!

1st price: 1000 SEK at your student union card

2nd price: Gift basket

3rd price: Flat of Nocco

About us

ABB is a technology leader in electrification and automation, enabling a more sustainable and resource-efficient future. The company's solutions connect engineering know-how and software to optimize how things are manufactured, moved, powered and operated. Building on more than 130 years of excellence, ABB's 105,000 employees are committed to driving innovations.

Our trainee program

At ABB, we are committed to energizing the transformation of the world toward a more productive and sustainable future. As a Discovery Graduate, you will be at the forefront of innovation and industrial digitalization, working on cutting-edge projects that address the most crucial technological and environmental challenges.

From day one, you will take on hands-on responsibilities, rapidly building your skills and experience through a series of exciting, cross-functional, cross-divisional, and international assignments. As a Discovery Graduate, you will have the opportunity to shape your own path and select from a wide range of fields, including automation, R&D, and sales. You will be challenged to work on some of the most critical technological and environmental challenges facing the world today, making a real impact and leaving a legacy.

Over the course of 18 months, you will embark on three six-month assignments of your choosing, taking ownership and responsibility for specific projects. This program empowers you to step out of your comfort zone, explore your passions, and discover the perfect fit for your future career within ABB. You will broaden your network, gain valuable insights from top managers through regular dinners and study visits, and connect with the global virtual network of Graduates.

This trainee program is available for students speaking either of the Scandinavian languages: Swedish, Norwegian or Danish.

About us

Posten Bring AS är en nordisk post- och logistikkoncern som utvecklar och levererar helhetslösningar inom post, kommunikation och logistik. Norden är vår hemmamarknad. Koncernen möter marknaden med två varumärken: Posten och Bring. I Norge möter privatkunder Posten, medan privatpersoner utanför Norge och företag i hela Norden möter Bring.

Bli trainee

i Posten och Bring

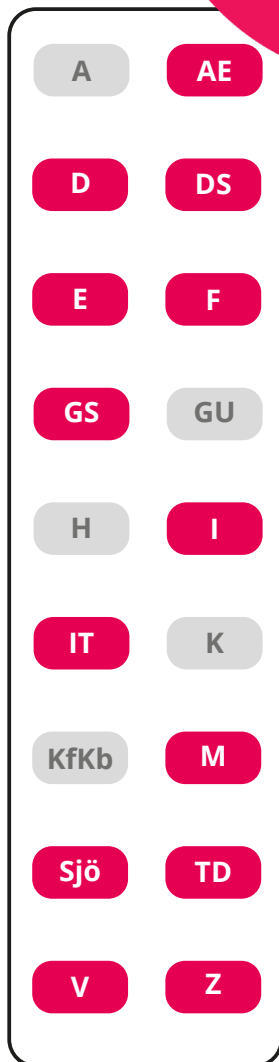

Our trainee program

Brings traineeprogram är en unik möjlighet att kombinera och utveckla kunskap och nätverk i en stor nordisk koncern. Positionen som trainee ger en fantastisk början på en karriär som en av nyckelpersonerna i vår organisation.

Traineeprogrammet pågår i två år och under denna tid får man möjligheten att fritt välja fyra olika tjänster inom koncernen där den första rotationen är i Oslo på vårt huvudkontor. Under traineeperioden får man besöka flera olika driftsmiljöer för att få en god helhetsförståelse och insikt i organisationen. Mellan första och andra året har man även möjlighet att testa på en ledarroll ute i driftverksamheten.

Som en del av traineeprogrammet kommer du märka att din personliga utveckling står i fokus. Traineeerna uppmannas och stöttas i att utarbeta en egen utvecklingsplan för traineeperioden och fortsatt karriär. Det finns en stor stödapparat kring traineen med trainee-ekoordinator, den närmaste ledaren och en personlig mentor som hjälper traineen med den yrkesmässiga och personliga utvecklingen. Parallellt med de olika rotationerna anordnas ledarskapsutbildningar och kurser i arbetsmetodik. Kompetensdagar varje månad tillför ny kunskap om Brings organisation, strategi, marknad och värdekedja. Du som trainee blir tillsvidareanställd från första dagen och är garanterad en anställning i koncernen efter traineeprogrammets slut.

About us

Every time you travel by air, almost anywhere in the world, it is likely that GKN Aerospace is helping you on your way. Our technologies and components are used in 90% of the world's aircraft, ranging from the most used single aisle aircraft to the largest passenger planes in the world as well as business jets and the world's most advanced 5th generation fighter aircraft. We are continuously evolving, pioneering new technologies and reinventing existing ones, stretching ourselves to be better in everything we do.

Our trainee program

Our graduate program is well established, celebrating over 30 years of success. It is highly personalized and enables you to set your own goals and explore your own interests. Throughout your graduate journey we will give you the opportunity to test and grow both your professional and personal skills. We aim to match your talents and aspirations to our strategic and operational needs – ensuring a fulfilling career for you and a thriving business for us.

During the 22-month program you will complete rotations within the company where you have the opportunity to explore different areas of our business at the same time as you work on real projects, solving real problems and delivering real change. Part of your time will be devoted to graduate activities such as sessions with senior leaders/specialists, study visits, fairs, courses etc. The first 16 months are carried out in Trollhättan followed by an international placement.

We will provide development through a formal global development program. The development program will help progress you from being an individual contributor towards leading others, preparing you for potential leadership roles in the future.

About us

Hilti is where innovation is improving productivity, safety and sustainability in the global construction industry, and beyond. Where strong customer relationships are creating solutions that build a better future. Where there is pride and a sense of belonging across our 120 locations, carrying right into our lives and homes. Where people are exploring possibilities, leveraging their potential, owning their personal development and growing lasting careers.

Our trainee program

Outperformer:

We're looking for the next generation of high-performing, multi-lingual, post-graduate talents to take our company forward. Hilti Outperformer is a two year, global management development program like no other, with real responsibility from day one.

Engineering Leadership Development Programme:

We're looking for the next generation of high-performing, post-graduate technical, engineering talents to take our company forward. This is a management development program like no other, spanning multiple years. You'll spend the first two years learning our business from the ground up, either as a direct sales account manager or a field engineer.

Sales and Marketing Graduate Programme:

(soon to be launched in Sweden) You will initially be working on the ground in an Account Manager role for 24 months, learning the commercial aspects of our business, before progressing on to a pathway role in Sales or Marketing, either moving into team leadership (where you'll become part of our Emerging Leaders programme) or developing in an expert role.

About us

At Hitachi Energy our purpose is advancing a sustainable energy future for all. We bring power to our homes, schools, hospitals and factories. Join us and work with fantastic people, while learning and developing yourself on projects that have a real impact to our communities and society. Bring your passion, bring your energy, and be part of a global team that appreciates a simple truth: *Diversity + Collaboration = Great Innovation*

Power+
Graduate Program

 **Hitachi Energy**

Our trainee program

Fast-track your career while having the freedom to choose the assignments you're most interested in during our 18-month long program. Build a diverse network by rotating through three different assignments that will develop you across geographies, business lines, working environments, and technical career areas.

Our Power+ Graduate Program aims to jumpstart your career with a truly unique journey that will take you across three 6-month long work assignments before rolling off into a permanent position. While you are a full-time, permanent member of our team, each assignment will be within a different segment of our business and provides deep, experiential learning opportunities within different engineering segments. Along the way, we'll provide you continuous career support with career development curriculum and coaching.

Our program is perfect for you if you are looking to fast-track your leadership potential and gain a well-rounded business acumen that will enable you to find the perfect, long-term position within our organization. Join us!

L'ORÉAL

NORDIC

About us

Calling all innovators, disruptors, and dreamers!

Join L'Oréal, the world's #1 beauty company present in over 150 markets. For over 100-years, we've been transforming, fueled by data, tech, innovation, and science. Together, we solve complex challenges at scale, while staying true to our commitments to society and the planet.

Our trainee program

Our Nordic Management Trainee Program is composed of two 6-month rotations that are flexible to match your needs and ambitions, yet ensure that you will get to know the broad picture of L'Oréal Nordics.

During the 12-month program, starting in September 2024, you will discover our various divisions and business units as well as take on tasks in different functions. Even though you have a degree in a specific field, e.g., (Marketing, Digital, E-commerce, Finance, Supply Chain) we will challenge you to take on projects in other functions as well.

For each rotation, you will be given a specific project with performance objectives and direct support from your manager and HR. You will rapidly build a wide and strong Nordic network within the company and have the chance to be part of the Nordic Management Trainee community.

About us

Parker products can be found on and around virtually everything that moves. Why? Because we produce motion and control technologies that make a difference in people's lives. But there are endless engineering challenges still waiting to be solved. That's why we need you! People with the talent and drive to make the world move.

Challenges drive Parker people forward. We are continuously seeking new ways to innovate, combine technologies, collaborate, develop systems, and partner with our customers to solve problems.

be tomorrow.

Our trainee program

At Parker we help students and recent graduates to become the next generation of leaders, entrepreneurs, and engineers. You are vital to the future of our business.

By starting your career at Parker, you will learn new ways of working with colleagues and be empowered to make decisions with guidance and coaching from senior leaders. You will work in multicultural teams and build your own network.

During the two-year program, you will have multiple assignments including one abroad, discovering multiple roles and gathering various experiences.

We seek talented, motivated individuals who possess the humility to succeed as part of a team. Your ideas can improve people's lives and protect our planet.

Join us to help solve our customers' challenges.

This trainee program is available for students speaking either of the Scandinavian languages: Swedish, Norwegian or Danish.

Polisen

About us

Du behöver inte vara polis för att jobba på polisen.

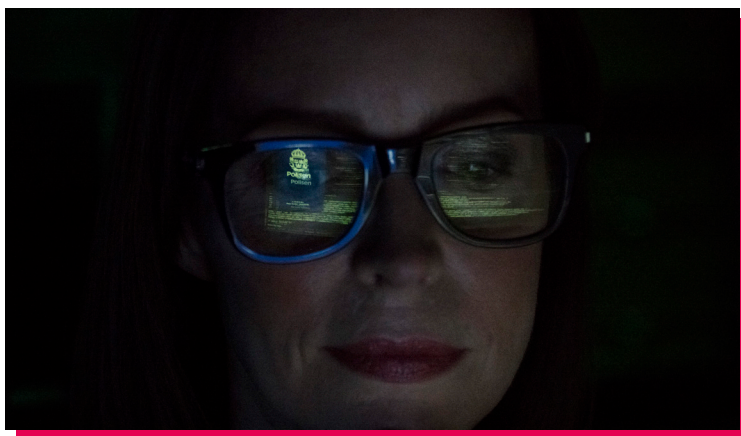

Att arbeta för polisen är att skapa trygghet i människors liv. Som medarbetare hos oss har du möjlighet att göra skillnad och bidra till ett säkrare Sverige.

Our trainee program

Polisens populära IT-traineeprogram har sedan 2018 välkomnat 86 ambitiösa traineer.

I september varje år är det programstart för IT-traineeprogrammet som Polismyndigheten och Säkerhetspolisen genomför tillsammans. Syftet med traineeprogrammet är att erbjuda dig en bra introduktion och en bred kunskap om den IT-avdelning där du blir anställd och om myndigheternas verksamheter. Traineeprogrammet har som mål att stötta din fortsatta personliga utveckling och yrkesmässiga karriär. Du får även en god möjlighet att börja bygga upp ditt personliga nätverk då du under traineeperioden skapar många värdefulla kontakter

Du kommer att vara anställd antingen på Polismyndigheten eller på Säkerhetspolisen. Traineeprogrammet pågår under sex månader då du omväxlande deltar i traineeaktiviteter och jobbar praktiskt i din "hemmagrupp" inom det teknikområde där du blivit anställd, därefter fortsätter du att jobba heltid inom ditt område.

Aktiviteter i traineeprogrammet är verksamhetsbesök inom polisen samt externt hos andra myndigheter inom rättsväsendet. Vidare erbjuds du utbildningar både internt och externt. Resor inom Sverige och utomlands förekommer.

About us

Scania is a world leading provider of transport solutions. Our purpose is to drive the shift toward a sustainable transport system, creating a world of mobility that is better for business, society, and the environment. Building on the past. Preparing for the future.

Our trainee program

We offer a 15 month program which starts August 19th 2024 with graduation November 21st 2025.

Our program offers deep insights not only at Scania but also within TRATON Group, our holding company where we collaborate with other brands in a global setting. Through this collaboration we enable you to share knowledge and learnings across the brands, build an excellent network, learn about cultural differences and grow as individuals.

As a leadership program, we focus on teaching you how to lead yourself before leading others. We provide the tools to prepare and develop you for a future career in an international company. With rotations of your own choice, you tailor your trainee period according to your interests and skills, creating the perfect match for you to become the leader of tomorrow. A future visionary who contributes to making sustainable innovations happen.

Who can apply?

In Young Potential Trainee Program you will spend a minimum of three months outside of Sweden and for that reason you need to be an EU-citizen or have permanent residence permit in Sweden to be able to get accepted to the program.

About us

Our products can be found literally anywhere in society. In fact, wherever there is rotation there might be an SKF solution at work. For over a century, we have refined our expertise within the development, design and manufacturing of bearings, seals, and lubrication systems. We combine this with services within remanufacturing, condition monitoring and maintenance. Explore the world of SKF to find out more about what we do: www.skf.com

Our trainee program

Introduction month and programme gatherings

The Global Graduate Programme starts in September each year, with a bang at the SKF Headquarters in Gothenburg. The Introduction month and the programme gatherings are spent together with all the SKF Global Graduates. During these weeks you will get to know more of SKF and meet our Group Management team. It will provide inspirational lectures, workshops and several training opportunities within areas such as leadership, project management and business insights. And of course – we will also have lots of fun!

Rotations

Through international and cross functional rotations, working in real projects, you will get to know our company and colleagues worldwide. Each of the three rotations are five months each and will be individually designed based on your interests and goals and our business needs.

After the programme

As a Global Graduate, you are permanently employed from start. After the 18 month in the Global Graduate Programme we celebrate with a Graduation ceremony, before the Global Graduates takes on their next exciting role in the SKF business.

This trainee program is available for students speaking either of the Scandinavian languages: Swedish, Norwegian or Danish.
